## ABOUT

From an age even as young as 4, God has been molding and shaping me into a leader who loves people and serving the Church. I grew up playing, working, flirting, and studying within the walls of the church. As I grew in age, my understanding and affection for Jesus grew deeper. Whether I was in college, a kid on the playground, or a married man, my desire has always been to understand the character of God and connect with Him; and my mission has been to help others do the same.
