

The only multisite management platform

Multisite Research

The Problem

Vision Casting/Catching Chasm

New campus leaders and staff aren't on the same page about the church's vision and the campus' mission

Central/Local Identity Crisis

The campus isn't aligning the church's identity with what's relevant for the location in the local community

What Worked Doesn't Anymore

What worked for 2 sites, back then, or for other churches doesn't work the same way with new/more locations

The 4R Equation

When roles, responsibilities, and reporting is unclear, new campuses only further complicate relationships

Straining System Strength

New campuses test the strength of existing systems and can slow down growth if systems aren't strong enough

Lack of Leveraging Efficiency/Economies of Scale

New campuses tend to build their own toolboxes instead of using existing, shared, paid-for products

MultiMeter is a multisite management platform
that assesses your multisite locations periodically
to help you manage your church better, faster, together!

Measure and manage the growth
of your multisite church locations
in  minutes , not  months!

Get Started

“MultiMeter is invaluable for helping multisite churches consistently assess and monitor the health of their campuses collectively.

It has a beautiful team-based dashboard that will help you become a better and stronger multisite church. I highly recommend it!”

Jim Tomberlin

 @MultiSiteGuy

Rethink multisite management for your unique church context

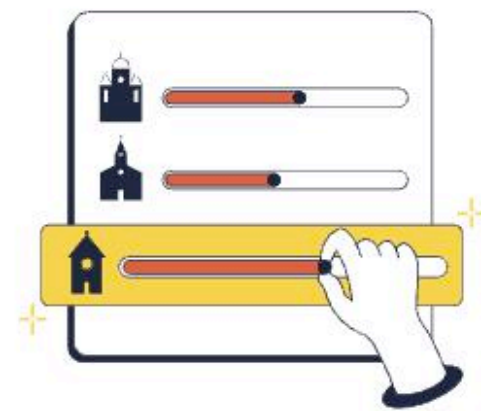

Step 1: Pastor Assessment

Ask your campus pastors at each multisite to take this 3-min test.

Step 2: Team Engagement

Ask them to then invite all core team members to take that same test too.

Step 4: Growth Gauge

Repeat the process periodically to measure and manage your progress.

Step 3: Multisite Dashboard

See what your staff feels is working, what's not, and why at each multisite.

Instant insane insights to manage your multisites

Team-Based Assessment

Measure each multisite's progress by asking not just the campus pastor but the entire core team.
